

Special Merchandise Offer for Registrants - Congress Bag Upgrade Option

Included with Congress registration, all registrants will receive the standard conference bag with the 17th ICS logo as pictured [here](#).

As a special offer from one of our sponsors, **Aspiring Safety Products NZ**, registrants have the option to upgrade the standard congress bag to a small cave pack for an additional registration charge of only \$15AUD.

This small 15 litre cave pack is great for shorter caving trips and is ideal for carrying a 50 metre rope. Made from 680g/m² white PVC, the pack has a webbing reinforced base with eyelets for drainage, double haul straps, adjustable shoulder straps and a drawstring closure. See pictures of the cave pack [here](#).

By choosing the upgrade option of the small cave pack for the additional \$15AUD charge with your Registration, you will receive the optional cave pack instead of the standard conference bag.

Aspiring Safety Products NZ is also offering all registrants the chance to purchase one additional small 15 litre cave pack for the heavily discounted price of just \$25AUD. These can be selected along with your other merchandise options when completing your registration and payment for the ICS.
