Chillagoe—far north Queensland

Combine your flight into of Australia with Cairns, the Great Barrier Reef and caving amidst the tower karst Chillagoe. July is an ideal time to visit the area; it is the dry season. Rain is rare, humidity low and temperatures enjoyable.

Chillagoe is a small outback town, of about 300 people, about 230 km west of Cairns.

The Chillagoe tower karst comprises nearly 600 documented cave entrances and the caves vary in difficulty from easy-horizontal to difficult SRT.

While not part of any congress-organised excursion the Undara lava caves can also be accessed from Cairns.
